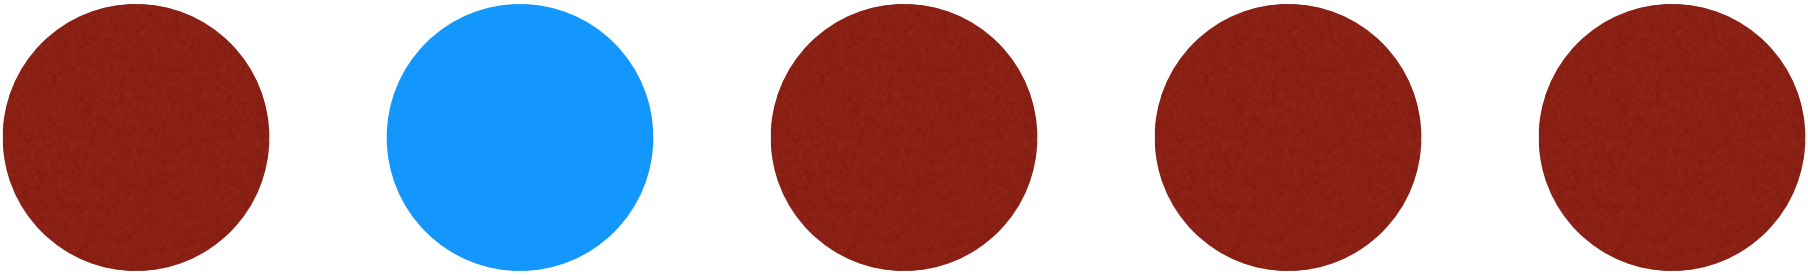
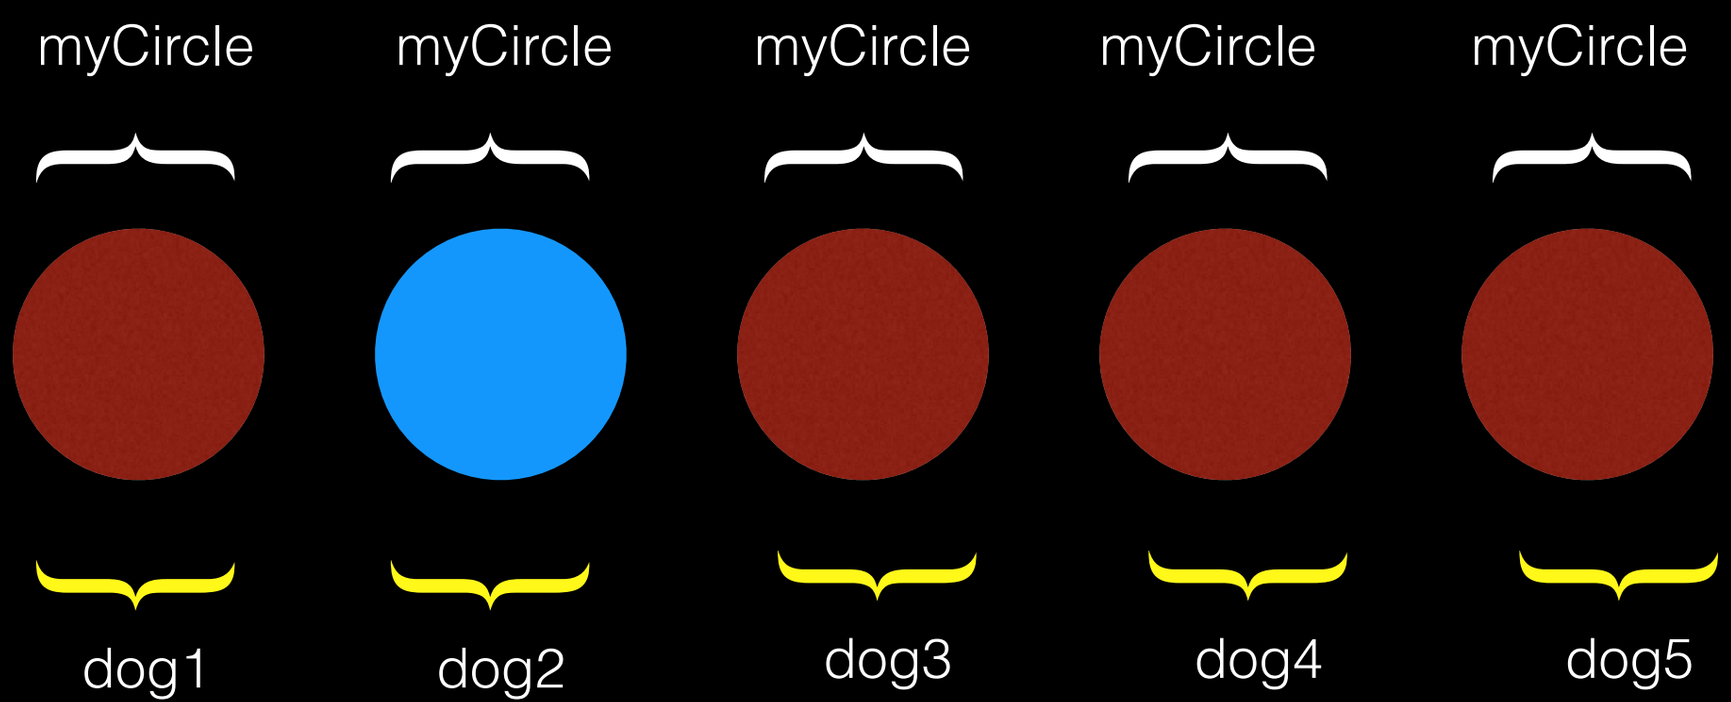
id



The id selector allows you to style a unique item without affecting any others.

Change id="dog2" to blue



Only id="dog2" is affected

```
11  </head>
12  <body>
13
14  <h1 class="odd" id="hed1">This is a headline 1</h1>
15
16  <h1 class="even" id="hed2">This is a headline 2</h1>
17
18  <h1 class="odd" id="hed3">This is a headline 3</h1>
19
20  <h1 class="even" id="hed4">This is a headline 4</h1>
21
22  <h1 class="odd" id="hed5">This is a headline 5</h1>
23
24  <h1 class="even" id="hed6">This is a headline 6</h1>
25
26  <h1 class="odd" id="hed7">This is a headline 7</h1>
27
```
