

You might see this....
don't do it

Inline Styling

- Place CSS anywhere within the head:

```
4 <head>
5   <meta charset="utf-8">
6
7   <title>UPDATE THIS: Title of Page Goes Here</title>
8
9   <style type="text/css">
10
11     /* Styling script goes here */
12
13   </style>
14 </head>
```
